About the Program

The **AI Mastery Program for Life Science and Healthcare Professionals** is a hand-held, workshop-based program that helps you put AI to work in your everyday role. It is not a lecture series — every session is built around doing: you open the tool, build the output, and take a working method back to your desk.

The program is designed around the needs of **Life Science and Healthcare**, and is led by directors who bring in-depth domain expertise in both Life Science & Healthcare and Artificial Intelligence. Over **24 hours of live video-conference workshops**, you cover safe use of AI, content, research, dashboards, agents and open-source tools — and finish by applying them to a use case from your own department.

Why this program

Built for Life Science & Healthcare Curriculum and use cases are mapped to the departments and workflows of the sector.	True two-way communication Voice and video interaction both ways on our platform — not one-way broadcast with a chat box.
Workshop, not lecture Hand-held, hands-on learning — you leave with outputs, not just notes.	Safe & responsible AI Starts with AI security, data privacy and Meta security, before any tool is used.
Domain + AI directors Program directors combine deep domain expertise with practical AI depth.	Secure, dedicated infrastructure Dedicated secured server and interface for your sessions.
18 departments covered Role-relevant toolkits from Regulatory and Medical Affairs to Finance and Sales.	Detailed certificate A certificate that lists every tool you have completed.
100% live video conference Learn from anywhere — two 2-hour sessions every weekend.	Free-course updates Stay informed about free courses and updates from the Academy.

Curriculum Map

Eleven learning clusters take you from safe AI use to agents, dashboards and department-specific labs.

Cluster	Tools & topics	When
1 · Safety & governance	AI Security · data privacy · Meta Security	S1
2 · Prompt & content engineering	Prompt Perfect · Prompt Genie · ChatGPT · Perplexity · Gemini · Claude · Grok · Kimi · GLM 5 · advanced hacks in ChatGPT & Claude	S2, S7
3 · Voice, language & communication	Live debate board (voice mode) · language transformation in any language · TLDV notetakers (Meet, Zoom, Teams) · WhatsApp appointment scheduling	S2, S3
4 · Presentations & storytelling	Gamma · Agnes · Kimi · GLM 5 · Genspark · Google Vids (audio-visual mode)	S4
5 · LinkedIn & personal branding	LinkedIn content from a PPT, weblink & YouTube video · LinkedIn-to-website transformation	S7
6 · Google AI ecosystem	Gemini · NotebookLM (podcast, video, infographic, mind map) · Gemini Create · Workspace AI · Pomelli · Stitch · Opal · MusicFX / Flow Music · Google Vids	S5, S6
7 · Claude & ChatGPT power-use	Skills · connectors · hacks	S6, S7
8 · Dashboards & data storytelling	HTML dashboards via Perplexity, Kimi, Claude, GLM · Memex · Flourish · DataSquirrel · TheBricks · SnapLearn	S8
9 · AI agents & automation	n8n · Google · Claude · Microsoft Copilot · Emergent	S9
10 · Open-source & resource library	GitHub · Hugging Face · Poe · DesignArena · GetMulti · arena.ai · AnswerThis · Apodex · Oboe · Alison · Denovo · Bytez · DeepSeek · Anuma · World Monitor	S10, S11
11 · Department use-case labs	Three hands-on labs covering all 18 departments — apply the toolkit to your own function	S11, S12

Session-by-Session Learning Plan

Twelve live sessions of 2 hours each. Every block lists the exact time allotted, the tools you will use and the output you will walk away with. Time slots show elapsed session time; clock timings are set for each batch.

Responsible use, built into every session

Life Science and Healthcare data is sensitive. You learn to keep confidential, personal and patient data out of public AI tools, to check AI outputs against trusted sources, and to keep a human reviewer in the loop.

SESSION 1 • SATURDAY • Weekend 1

2 hours • Foundations & safe use of AI

Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–0:30	30	Welcome, program orientation & AI landscape	Program roadmap · tool map	Clear view of your 24-hour journey
0:30–1:45	75	AI Security, Data Privacy & Meta Security	Privacy & data controls in ChatGPT, Claude, Gemini · Meta account & platform security	Secure-use checklist, incl. handling of Life Science & Healthcare data
1:45–2:00	15	Recap & Q&A	—	Session takeaways

SESSION 2 • SUNDAY • Weekend 1

2 hours • Prompting & live debate

Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–1:00	60	Prompt Engineering & Content Creation	Prompt Perfect · Prompt Genie · ChatGPT · Perplexity · Gemini · Claude · Grok · Kimi · GLM 5	Optimised prompt library + first content pack
1:00–2:00	60	Live Debate Board via Voice Mode	ChatGPT · Perplexity · Claude · Gemini · Grok	Multi-persona live debate to stress-test an idea or decision

Investment & Certification

One program fee covers the complete 24-hour curriculum, all tool modules and the certificate.

PROGRAM FEE

₹ 29,500

inclusive of 18% GST

Program fee	₹ 25,000
GST @ 18%	₹ 4,500
Total payable	₹ 29,500

What is included

- 24 hours of live, workshop-led learning
- 12 sessions · 2 hours every Saturday & Sunday
- Hands-on with 40+ AI tools
- Department use-case labs for all 18 functions
- Two-way voice & video on a dedicated, secured platform
- Detailed certificate listing all tools completed
- Updates on free courses from the Academy
- Video conference only — no travel required

Your certificate

On successful completion, you receive a detailed certificate that lists **every tool you have completed** — proof of both breadth and hands-on capability with AI in a Life Science and Healthcare setting.
