

TRAIN THE TRAINER • WORKSHOP-BASED

AI Educator Mastery Program

Become a certified AI faculty-cum-trainer for Life Science & Healthcare. We hand-hold you, workshop by workshop, through 60+ AI tools mapped to 18 business departments — then give you paid assignments to teach what you have mastered.

DSet Academy × School of Life Science

Skill Development Training & Research • Domain Partner: Imperical Consulting (Pvt.) Ltd.

32

hours of workshop-led
learning

18

departments covered

60+

AI tools, hands-on

₹43,660

payment

What you will master

Prompting & content

Prompt Perfect • Prompt Genie • 8 AI
assistants

Google AI ecosystem

Gemini • NotebookLM • Workspace AI •
Labs

Presentations & video

Gamma • Genspark • Google Vids • Veo •
Kling

Dashboards & data

HTML dashboards • Flourish • DataSquirrel

AI agents

n8n • Claude • Copilot • Emergent • Opal

Trainer craft

Teach-back • demonstration • certification

Format

2-day residential immersion (weekends, at a designated city) → weekend video-conference sessions → project delivery & demonstration → certification.

You will be able to train

Students • Faculties • Entrepreneurs • Corporates • Industry Professionals

About the Program

The **AI Educator Mastery Program** is a hand-held, workshop-based Train the Trainer program that turns professionals, faculty and aspiring entrepreneurs into confident AI trainers. It is not a lecture series — every session is built around doing: you open the tool, build the output, and learn how to teach it.

The program is designed around the needs of **Life Science and Healthcare**, and is led by directors who bring in-depth domain expertise in both Life Science & Healthcare and Artificial Intelligence. On successful completion and a demonstration of your ability to train others, DSet Academy and School of Life Science will offer you **paid training assignments** across departments and audiences.

Why this program

Start your AI-training entrepreneurship Launch a training practice with content, collaterals and marketing support from us.	Train inside your own organisation Already employed? Showcase your ability by training your own teams.
Built for Life Science & Healthcare Curriculum and use cases are mapped to the departments and workflows of the sector.	True two-way communication Voice and video interaction both ways on our platform — not one-way broadcast with a chat box.
Workshop, not lecture Hand-held, hands-on learning — you leave with outputs, not just notes.	Secure, dedicated infrastructure Dedicated secured server and interface for delivery and recordings.
Domain + AI directors Program directors combine deep domain expertise with practical AI depth.	Detailed certificate A certificate that lists every tool you have completed.
Paid assignments on completion Train students, faculties, entrepreneurs, corporates and industry professionals — worldwide.	Free-course updates Stay informed about free courses and updates from the Academy.

Program at a Glance

32 hours in total — 24 hours of training & workshop (14 hours immersion + 10 hours video conference) and 8 hours of project delivery & demonstration. Additional doubt-clearing classes are arranged based on requirement.

Phase	Mode	Hours	What happens
Phase 1 • Immersion	2-day residential, weekend, designated city	14 h	Days 1-2 • Foundations, Google AI, creation studio, teach-back
Phase 2 • Weekend VC	2 hours every Saturday & Sunday (5 sessions)	10 h	Days 3-7 • Video, dashboards, agents, open-source, hacks
Phase 3 • Project	Video conference, weekends	8 h	Days 8-11 • Build, demonstrate, get certified
Total		32 h	24 h training & workshop + 8 h project

Your 6-weekend roadmap

	Saturday	Sunday
Weekend 1	Day 1 · Foundations & Prompting (7 h)	Day 2 · Google AI & Creation Studio (7 h)
Weekend 2	Day 3 · Video & multi-model platforms (2 h)	Day 4 · Dashboards & data storytelling (2 h)
Weekend 3	Day 5 · AI agents & automation (2 h)	Day 6 · Open-source & research toolkit (2 h)
Weekend 4	Day 7 · Power hacks & trainer craft (2 h)	Day 8 · Project kick-off & design clinic (2 h)
Weekend 5	Day 9 · Build sprint & mentor review (2 h)	Day 10 · Demonstration round 1 (2 h)
Weekend 6	Day 11 · Demonstration round 2 & certification (2 h)	Doubt-clearing class (on request)

Weekend 1 is the residential immersion; Weekends 2–4 are video-conference learning (Days 3–7) and project kick-off; Weekends 5–6 are project demonstration. Timings, sequence and batch dates are indicative and are confirmed for each batch.

Curriculum Map

Twelve learning clusters cover the complete tool stack — from safe AI use to agents, dashboards and media generation.

Cluster	Tools & topics	When
1 · Safety & governance	AI Security · Meta Security	Day 1
2 · Prompt & content engineering	Prompt Perfect · Prompt Genie · ChatGPT · Perplexity · Gemini · Claude · Grok · Kimi · GLM 5 · advanced hacks in ChatGPT & Claude	Days 1, 7
3 · Voice, language & communication	Live debate board (voice mode) · language transformation in any language · TLDV notetakers (Meet, Zoom, Teams) · WhatsApp appointment scheduling	Day 1
4 · Presentations & storytelling	Gamma · Agnes · Kimi · GLM 5 · Genspark · Google Vids (audio-visual mode)	Day 1
5 · LinkedIn & personal branding	LinkedIn content from a PPT, weblink & YouTube video · LinkedIn-to-website transformation	Day 2
6 · Google AI ecosystem	Gemini · NotebookLM (podcast, video, infographic, mind map) · Gemini Create · Workspace AI · Flow · Pomelli · Stitch · Opal · MusicFX / Flow Music · Imagen · Google Vids	Day 2
7 · Claude & ChatGPT power-use	Skills · connectors · hacks	Days 2, 7
8 · Image & video generation	Midjourney · ChatGPT · Flux · Gemini · Firefly · Ideogram · Seedream · Qwen-Image · HunyuanImage · Kolos / Kling · Kling AI · Seedance · Hailuo · Wan · Runway · Veo · Luma · Pika	Days 2, 3
9 · Dashboards & data storytelling	HTML dashboards via Perplexity, Kimi, Claude, GLM · Memex · Flourish · DataSquirrel · TheBricks · SnapLearn	Day 4
10 · AI agents & automation	n8n · Google · Claude · Microsoft Copilot · Emergent	Day 5
11 · Open-source & resource library	GitHub · Hugging Face · Poe · DesignArena · GetMulti · arena.ai · AnswerThis · Apodex · Oboe · Alison · Denovo · VidRush · Bytez · DeepSeek · Anuma · World Monitor	Days 3, 6
12 · Trainer craft & capstone	Teach-back rounds · delivery skills · project design, demonstration & certification	Days 2, 7–11

Day-by-Day Learning Plan

Every block below lists the exact time allotted, the tools you will use, and the output you will walk away with. Immersion days run 09:30–18:00 (7 hours of contact time plus lunch and two tea breaks).

DAY 1 • SATURDAY • Residential Immersion				
7 hours • Foundations, security, prompting, communication & presentations				
Time	Min	Module	Tools & platforms	Hands-on outcome
09:30–10:00	30	Welcome, workshop orientation & AI landscape	Program roadmap • tool map • trainer mindset	Clear view of the 32-hour journey
10:00–10:45	45	AI Security & Meta Security	Privacy & data controls in ChatGPT, Claude, Gemini • Meta account & platform security	Secure-use checklist for self and organisation
10:45–11:00 • Tea break				
11:00–12:00	60	Prompt Engineering & Content Creation	Prompt Perfect • Prompt Genie • ChatGPT • Perplexity • Gemini • Claude • Grok • Kimi • GLM 5	Optimised prompt library + first content pack
12:00–13:00	60	Live Debate Board via Voice Mode	ChatGPT • Perplexity • Claude • Gemini • Grok	Multi-persona live debate for classroom use
13:00–14:00 • Lunch				
14:00–14:45	45	Language Transformation in Any Language	ChatGPT • Perplexity	Training content localised to regional & global languages
14:45–15:15	30	AI Notetakers for Every Meeting	TLDV on Google Meet, Zoom & Microsoft Teams	Recorded, summarised, searchable session library
15:15–15:45	30	WhatsApp for Appointment Scheduling	WhatsApp	Working booking flow for learners / clients
15:45–16:00 • Tea break				
16:00–17:00	60	Attractive Presentations from Your Content	Gamma • Agnes • Kimi • GLM 5 • Genspark	Same content built in five tools and compared
17:00–17:45	45	Slides → Audio-Visual Presentation	Google Vids	Narrated video lesson from a finished deck
17:45–18:00	15	Day 1 recap & Q&A	—	Day-1 takeaways and homework

Responsible use, built into every session

Life Science and Healthcare data is sensitive. Participants learn to keep confidential, personal and patient data out of public AI tools, to check AI outputs against trusted sources, and to keep a human reviewer in the loop — the same habits they will pass on as trainers.

DAY 2 • SUNDAY • Residential Immersion

7 hours • Google AI, LinkedIn, creation studio & teach-back

Time	Min	Module	Tools & platforms	Hands-on outcome
09:30-10:15	45	LinkedIn Content from a PPT, Weblink & YouTube Link	ChatGPT • Claude • Gemini • Perplexity	Three ready-to-post LinkedIn drafts from three source types
10:15-10:45	30	Turn LinkedIn into a Website & Fresh Content	Claude • Gemini • Genspark	Personal website generated from your profile
10:45-11:00 • Tea break				
11:00-12:15	75	Gemini NotebookLM — All Aspects	NotebookLM: audio podcast • video • content creation • infographic • mind map	Full learning kit from one set of sources
12:15-13:00	45	Gemini Create	Gemini: content • audio • website • app • infographic	A mini website or app built from a prompt
13:00-14:00 • Lunch				
14:00-15:00	60	Explore Google AI: Workspace AI & Google Labs	Gemini in Gmail, Docs, Sheets, Slides, Meet • Flow • Pomelli • Stitch • Opal • MusicFX / Flow Music • Imagen	Brand campaign, UI design, mini-app & music track
15:00-16:00	60	Explore Claude & ChatGPT: Skills & Connectors	Claude • ChatGPT	A repeatable trainer workflow using skills & connectors
16:00-16:15 • Tea break				
16:15-17:15	60	Image Generation Studio	Midjourney • ChatGPT (DALL-E 3 / GPT-4o) • Flux • Gemini (Imagen / Nano Banana Pro) • Adobe Firefly • Ideogram • Seedream 5.0 • Qwen-Image 2.0 • HunyuanImage 3.0 • Kolos 2.1 / Kling Image • Kimi • GLM • Grok	Same brief across tools; pick the right tool per use case
17:15-18:00	45	Trainer Teach-back Round	Any tool learned so far	Micro-demo by each participant + peer feedback

Weekend video-conference sessions (Days 3–7)

Five 2-hour sessions, held every Saturday and Sunday. Time slots show elapsed session time; clock timings are set for each batch.

DAY 3 • SATURDAY • Weekend VC-1				
2 hours • Video generation & multi-model platforms				
Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–1:00	60	Video Generation Studio	Kling AI • Seedance (Dreamina) • Hailuo AI (MiniMax) • Wan AI • Runway Gen-4.5 • Google Veo 3.1 • Luma Dream Machine 2.0 • Tencent Hunyuan Video • Pika 2.5 • Qwen-3 Next	A short AI video clip and a tool-selection cheat-sheet
1:00–2:00	60	Multi-Model Platforms & Model Access	Poe • DesignArena • GetMulti • arena.ai • Bytez • DeepSeek • Anuma • ATXP	Side-by-side model comparison workflow

DAY 4 • SUNDAY • Weekend VC-2				
2 hours • Dashboards & data storytelling				
Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–1:00	60	HTML Dashboards Using AI	Perplexity • Kimi • Claude • GLM	Interactive HTML dashboard from a dataset
1:00–2:00	60	AI Dashboard Platforms	Memex • Flourish • DataSquirrel • TheBricks • SnapLearn	Shareable dashboard built on a no-code platform

DAY 5 • SATURDAY • Weekend VC-3				
2 hours • AI agents & automation				
Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–0:30	30	Agent Fundamentals & Google Agent Builders	Google (Gemini • Opal)	Agent blueprint: goal, tools, memory, guard-rails
0:30–1:15	45	No-Code Workflow Agents	n8n	Automated multi-step workflow with triggers
1:15–1:45	30	Assistant-Based Agents	Claude • Microsoft Copilot	Task agent configured for a department use case
1:45–2:00	15	Agent Builder Demo & Review	Emergent	Agent built from a prompt; compare approaches

DAY 6 • SUNDAY • Weekend VC-4

2 hours • Open-source & research toolkit

Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–0:30	30	GitHub — Download & Use Open-Source Resources	GitHub	Open-source project cloned and running locally
0:30–1:00	30	Hugging Face — Models & Datasets at Zero Cost	Hugging Face	An open model downloaded and tested
1:00–2:00	60	Research & Learning Resource Library	Perplexity • AnswerThis • Apodex • Oboe • Alison • Denovo • VidRush • World Monitor	Personal research stack + a self-made course outline

DAY 7 • SATURDAY • Weekend VC-5

2 hours • Power hacks & trainer craft

Time	Min	Module	Tools & platforms	Hands-on outcome
0:00–0:45	45	Hacks in ChatGPT & Claude to Enhance Content Creation	ChatGPT • Claude	Personal hack-book for faster, better content
0:45–1:30	45	Train-the-Trainer Delivery Skills	Recorded-session platform • VC facilitation • content design	Workshop flow and delivery plan for your audience
1:30–2:00	30	Capstone Project Brief	Any tool of your choice	Chosen department, audience, topic & tool stack

Project delivery & demonstration (Days 8–11)

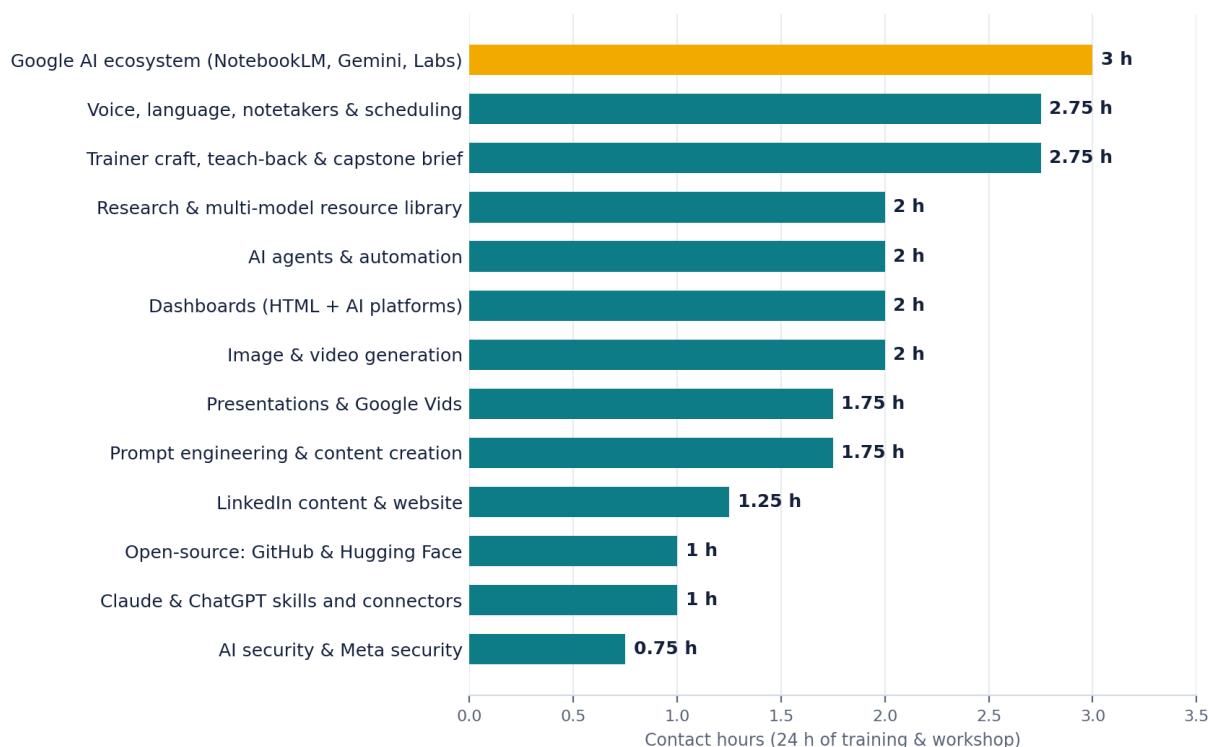

Eight hours dedicated to applying what you learned. You design a training module for your chosen department and audience, build it with mentor support, and demonstrate it live.

PROJECT PHASE • Days 8–11 • 4 × 2 hours = 8 hours

Session	Focus	Activities	Deliverable
DAY 8 • Sunday	Project kick-off & content-design clinic	Finalise department, audience and tool stack • outline the workshop • mentor feedback on content design	Approved project plan
DAY 9 • Saturday	Build sprint & mentor review	Build slides, prompts, demos and hand-outs • live troubleshooting • dry-run of first segment	Working draft of the training module
DAY 10 • Sunday	Demonstration round 1	Each participant delivers a live demo session to the cohort • structured feedback	Demo delivered + feedback log
DAY 11 • Saturday	Demonstration round 2, assessment & certification	Refined delivery • final assessment • certificate briefing • paid-assignment onboarding	Certificate & assignment eligibility

Time Allocation by Tool, Day by Day

How the 24 hours of training & workshop (Days 1–7) are distributed across tool families. Minutes per day are shown; the 8-hour project phase follows separately.

Tool family	D1	D2	D3	D4	D5	D6	D7	Total
Trainer craft, teach-back & capstone brief	45	45	–	–	–	–	75	2.75 h
AI security & Meta security	45	–	–	–	–	–	–	0.75 h
Prompt engineering & content creation	60	–	–	–	–	–	45	1.75 h
Voice, language, notetakers & scheduling	165	–	–	–	–	–	–	2.75 h
Presentations & Google Vids	105	–	–	–	–	–	–	1.75 h
LinkedIn content & website	–	75	–	–	–	–	–	1.25 h
Google AI ecosystem (NotebookLM, Gemini, Labs)	–	180	–	–	–	–	–	3 h
Claude & ChatGPT skills and connectors	–	60	–	–	–	–	–	1 h
Image & video generation	–	60	60	–	–	–	–	2 h
Dashboards (HTML + AI platforms)	–	–	–	120	–	–	–	2 h
AI agents & automation	–	–	–	–	120	–	–	2 h
Open-source: GitHub & Hugging Face	–	–	–	–	–	60	–	1 h
Research & multi-model resource library	–	–	60	–	–	60	–	2 h
Total (minutes)	420	420	120	120	120	120	120	24 h

D1–D2 = immersion days (420 min each) · D3–D7 = weekend VC sessions (120 min each). Darker cells = 2 hours or more on that tool family in a day.

Department-Wise Tool Usage

Typical use cases for each department, the tools taught in the program that serve them, and the day each is covered (D1 = Day 1, and so on). Use it to choose which modules to emphasise for a specific team.

Department	High-impact use cases	Tools you will use	Sessions
Human Resources	JD, policy & onboarding content · interview kits · L&D calendars · multilingual employee communication	ChatGPT · Claude · Gamma · Google Vids · NotebookLM · TLDV	D1 · D2
Admin	Meeting minutes & action logs · appointment / visitor scheduling · SOP & circular drafting · vendor correspondence	TLDV · WhatsApp · Gemini in Workspace · Opal · n8n	D1 · D2 · D5
Operations	Process SOPs · workflow automation · KPI & throughput dashboards · status reporting	Claude · n8n · Opal · HTML dashboards · Flourish	D4 · D5
Production	SOP-based Q&A and shop-floor training · batch / deviation trend dashboards · training video clips	NotebookLM · Flourish · DataSquirrel · Veo · Kling · Google Vids	D2 · D3 · D4
R&D	Literature review · protocol & paper summarisation · research synthesis · open-source models and code	Perplexity · NotebookLM · AnswerThis · Apodex · GitHub · Hugging Face	D2 · D6
Marketing & Strategy	Brand-DNA campaigns · social & LinkedIn content · visuals and video · positioning decks	Pomelli · Gemini Create · Midjourney · Firefly · Ideogram · Kling · Veo · Gamma	D1 · D2 · D3
Business Development & Sales	Prospect & account research · pitch decks & proposals · idea-to-GTM plans · multilingual outreach	Perplexity · Genspark · Denovo · Gamma · ChatGPT	D1 · D2 · D6
Supply Chain	Demand & inventory dashboards · supplier-risk and news monitoring · automated alerts	World Monitor · Flourish · DataSquirrel · n8n	D4 · D5 · D6
Regulatory	Guideline summarisation · cross-region comparison · submission checklists · document-grounded Q&A	NotebookLM · Claude · Perplexity	D1 · D2 · D6
Market Research, BA, BI & Competitive Intelligence	Secondary research · competitor tracking · insight dashboards · storytelling decks	Perplexity · Apodex · AnswerThis · Memex · Flourish · TheBricks · Gamma	D4 · D6
SFE	Territory & call-plan dashboards · rep coaching content · performance analytics · field micro-learning	Flourish · DataSquirrel · Claude HTML dashboards · Gamma · Google Vids	D1 · D4
Training	Course design · podcasts, mind maps & infographics · live debate boards · video lessons · quizzes	Oboe · NotebookLM · Gamma · Google Vids · Voice-mode debate · Alison	D1 · D2 · D6
Medical Affairs	Scientific-content summaries · literature & congress digests · HCP education material · multilingual medical communication	Perplexity · NotebookLM · Claude · Gemini · ChatGPT	D1 · D2
Digital Transformation	AI roadmaps · agents & low-code apps · UI prototypes · AI governance	n8n · Opal · Stitch · Microsoft Copilot · Emergent · GitHub	D2 · D5 · D6
Consulting	Rapid research · client decks · frameworks · dashboards · engagement notes	Perplexity · Genspark · Claude · Kimi · Gamma · TLDV	D1 · D2 · D4
Finance	Budget & variance dashboards · report summarisation · forecast visuals · automated reminders	Gemini in Sheets · Flourish · DataSquirrel · Claude · n8n	D2 · D4 · D5
Legal & Compliance	Contract & policy comparison · compliance checklists · clause summaries · AI-usage & data-privacy policy	Claude · NotebookLM · AI Security module	D1 · D2
Project Management & Corporate Strategy	Project plans & status decks · meeting-to-action pipelines · OKR dashboards · strategy scans	TLDV · Claude · Gamma · Opal · n8n · HTML dashboards	D1 · D4 · D5

Department × Tool Usage Matrix

An at-a-glance view of where each tool family matters most for each department. ● Core — used routinely ● Supporting — used situationally

Tool family	HR	ADM	OPS	PRD	R&D	M&S	BD&S	SC	REG	MR/BI	SFE	TRN	MA	DT	CON	FIN	L&C	PM&CS
Chat & reasoning assistants ChatGPT · Claude · Gemini · Grok · Kimi · GLM 5 · DeepSeek	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
Research & deep research Perplexity · AnswerThis · Apodex	●				●	●	●	●	●	●	●	●	●	●	●	●	●	●
Document-grounded AI Gemini NotebookLM	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
Presentations & narrated video Gamma · Agnes · Genspark · Google Vids	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
Meetings & scheduling TLDV · WhatsApp	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
Language & voice mode Language transformation · live debate board	●	●		●		●	●	●	●	●	●	●	●		●		●	
Prompt optimisation Prompt Perfect · Prompt Genie	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●
Image generation Midjourney · Flux · Firefly · Ideogram · Imagen ...						●	●			●	●	●	●	●	●			
Video generation Kling · Veo · Runway · Luma · Pika ...	●			●		●	●				●	●	●

AI security & governance AI Security · Meta Security	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●	●

Key: HR – Human Resources · ADM – Admin · OPS – Operations · PRD – Production · R&D · M&S – Marketing & Strategy · BD&S – Business Development & Sales · SC – Supply Chain · REG – Regulatory · MR/BI – Market Research, BA, BI & CI · SFE · TRN – Training · MA – Medical Affairs · DT – Digital Transformation · CON – Consulting · FIN – Finance · L&C – Legal & Compliance · PM&CS – Project Mgmt & Corporate Strategy

Your Paid Assignments

After completing the modules and demonstrating your ability to train others, DSet Academy and School of Life Science provide paid assignments across the world. You can also train inside your own organisation to showcase your ability.

Audience	Delivery format	What you bring
Students	Video conference only	Career-ready AI skills, tool demos and practice projects
Faculties	Video conference only	AI-enabled teaching, content creation and assessment workflows
Entrepreneurs	VC + immersion / in person, as required	AI for startups: research, content, GTM, dashboards and agents
Corporates	VC + immersion / in person, as required	Department-wise AI workshops (HR to Finance to Regulatory)
Industry professionals	VC + immersion / in person, as required	Role-specific AI toolkits for Life Science & Healthcare

Our support for your assignment delivery

- **Dedicated training platform** with two-way voice and video communication
- **Recordings stored on our server** — candidates get access to recordings with transcripts
- **Dedicated Academy email ID** on our highly secured own server
- **Full support on content design**
- **Marketing done by us** — and **all collaterals provided by us**
- **Recordings of previous classes** accessible to you and offered for sale through our platform

Investment & Certification

PROGRAM FEE

₹ 43,660

inclusive of 18% GST · payable in one go

Program fee	₹ 37,000
GST @ 18%	₹ 6,660
Total payable	₹ 43,660

What is included

- 32 hours: 14 h immersion + 10 h VC + 8 h project
- 2-day residential immersion in a designated city*
- Hands-on workshops across 60+ AI tools
- Content-design support & collaterals
- Recordings with transcripts
- Detailed certificate listing all tools completed
- Eligibility for paid assignments on successful demonstration

* Confirm with the Academy whether travel and accommodation for the residential immersion are included in the fee.

Extended Toolkit & Resource Library

Beyond the core modules, participants receive a curated library of platforms for multi-model access, research, course creation and open-source exploration. Free-tier availability and features change often, so check each platform before you build a workshop around it.

Platform	What it is used for	Link
Poe	Access to many AI models in one place	poe.com
DesignArena	Compare AI design and UI generations	designarena.ai
GetMulti	Multi-model chat workspace	getmulti.ai
arena.ai	Side-by-side model comparison	arena.ai/text/direct
Bytez	Browse and run a wide range of AI models	bytez.com
DeepSeek	DeepSeek chat assistant	chat.deepseek.com
Anuma	Multiple agents working at the same time	anuma.ai
ATXP	Multi-model chat access	chat.atxp.ai
GLM 5 (Z.ai)	GLM chat assistant	chat.z.ai
Genspark	All-in-one AI workspace for content creation	genspark.ai
AnswerThis	AI research assistant	app.answerthis.io
Apodex	Deep-research assistant	apodex.ai
Oboe	Create your own course on any topic	oboe.com
Alison	Free online courses including AI	alison.com
Prompt Genie	Prompt optimiser	prompt-genie.com
Denovo	Idea-to-go-to-market planning	denovo.dev
VidRush	Prompt-to-YouTube-video (waitlist)	app.vidrush.ai
SnapLearn	AI learning & dashboard platform	snaplearn.tech
Google Stitch	Text-to-UI design (HTML/CSS, Figma export)	stitch.withgoogle.com
Google Opal	No-code AI mini-app & workflow builder	opal.withgoogle.com

Your certificate

On successful completion, you receive a detailed certificate that lists **every tool you have completed** — proof of both breadth and hands-on capability, and your entry ticket to paid training assignments.
